Dryden, Washington.

Jan. 12, 1959

U.S. Air Force:

Dayton, Ohio

Sir: I have a flying saucer story to tell you. Last Monday Jan. 12<sup>th</sup> 9:20 AM.

I spotted a large silver object hanging motionless about one mile west of Cashmere Wash. It was as round as a silver disc and about the same size in appearance. As it was the mile east of me and around 15,000 or 18,000 feet high.

When I first noticed it I said to myself "Gosh - is that Planet Venus?"

I watched it for about 40 seconds. Then I noticed it was moving East. In about 60 seconds it was the size of a pin head. When it went out

Chelan County.

Feb. 18<sup>th</sup> 59.

Lawrence & Tacker.

Major = U.S.A.F.

Dear Sir:

This Object I seen, Jan. 12<sup>th</sup>

at 9:20 A.M. Was straight East of me.

When it started moving, it went East. This  
didn't give me a chance to estimate  
the speed. But from the size: before it  
started, and the size it dwindled down  
to: when it disappeared: In 60 seconds: was

proof it was traveling at great speed.

People wonder why they are Round. If

you were on Planet Mars: and planned to  
come down for a look see: Traveling at  
250,000 m.p.h. you couldn't use a ship with

DEPARTMENT OF THE AIR FORCE  
WASHINGTON

OFFICE OF THE SECRETARY

4 February 1959

Dear [REDACTED]

The Air Force appreciates your interest and effort in reporting your sighting. Citizens such as you have assisted to a very large degree the cataloguing by the Air Force of the many unidentified flying objects sighted over the past eleven and a half years. To assist the Air Force with the cataloguing of your sighting, please complete the inclosed questionnaire and forward it directly to:

Commander  
Air Technical Intelligence Center  
Attn: APCIN-4E4  
Wright-Patterson Air Force Base, Ohio

It is understandable that sometimes during the stress of excitement we might experience some detail completely out of proportion, but when given subsequent consideration, under calm circumstances, we may see this detail in its true perspective. You reported in your letter that the object was approximately the size of a half dollar; if this is true, then at four miles the object is closer to 1000 feet in diameter than the 50 or 60 you estimated. Further, if your original estimate of size is correct and this object regressed from you in 60 seconds until it was the size of a pin head, it would have covered closer to 60 miles in the minute, than the 7 miles estimated in your letter. It will be very helpful during analysis of this sighting if you would elaborate on this information when you complete the questionnaire.

Sincerely,

Incl

LAWRENCE J. TACKER  
Major, USAF  
Executive Officer  
Public Information Division  
Office of Information Services

[REDACTED]

I sight above the clouds. I judge it  
traveled around 7 miles in 60 seconds.

The clouds were drifting North at this  
time. The object: West East.

I have heard many reports of  
People seeing this type. Many times the  
thing is still. Not moving. But a few  
seconds after it is spotted. It starts to  
move. This happened in my case.  
Now I have come to the conclusion: there  
is a Magnetic Brain: That can pick up  
a person's mind. A few seconds after one  
is spotted. The M.B. warns the Pilot:  
that it is under observation.

At this time there were no jet planes in  
the sky. It would be impossible to sneak  
up on one. And with a hearing aid.

11.

Flying Saucers: Don't use Fuel: They extract  
Electricity from the Air: Creating a Magnetic Pull  
Forward: It's a long story-- I know for a fact,  
Earth Man is 100. years behind on inventions,  
Including Medical Science.

One thing I know, now, for sure: Some  
one is keeping an eye on the U.S.A.

Yours Truly -
